

A cup above the rest

OUR STORY

O'Coffee Club is a homegrown gourmet chain which brews coffee for coffee lovers. Founded in 1991 with the opening of its first store in Holland Village, O'Coffee Club was the very first independent coffee chain in Singapore and a pioneer in the local café scene. Today, O'Coffee Club has expanded across Singapore, Malaysia and Indonesia.

O'Coffee Club has its roots deeply set in sourcing, brewing and serving premium gourmet coffee. We place great emphasis on quality, delivering rich and flavourful coffee to our patrons.

We are picky about our coffee roast and blends. Over the three decades of coffee craft, we consistently examine each aspect from harvesting to brewing, creating significant taste profiles which tingles the tongue and awakens your soul.

Our hand brew bars in each store is where the baristas set to work, emphasizing on artisanal hand brewing methods such as the V60 Drip Coffee, Syphon Brew, the Chemex and extremely time specific brews like the French Press.

Apart from coffee, our baristas offer seasonal drinks across all stores. Known as The Barista's Special, these drinks are crafted for limited periods of time in celebration of festive seasons throughout the year.

O'Coffee Club also offers a refreshing comfort-food dining experience with noteworthy All Time Favourites over the years, for our consumers' dynamic palette.

O'Coffee Club is the ideal all day retreat cafe that serves gourmet coffee with great food in a modern and approachable environment.

OUR COFFEE STORY

O'Coffee Club is a homegrown gourmet chain, brewing coffee for coffee lovers like ourselves, since 1991

Pour Over

The V60 coffee dripper has ridged walls angled at 60 degrees, maintaining a water flow that promotes a balanced and consistent cup of coffee. With this method, one can easily manipulate brew variables. Weighing the beans right before the brew ensures just the right amount of coffee intensity, with the filter paper is rinsed out with hot water for hygiene. Grounds are poured into the centre of the V60 dripper with a little whirl in the middle, so that the ground beans will be evenly saturated. Then rich coffee is allowed to drip slowly for the most even extraction of coffee beans.

The French Press

This technique begins with a fresh grind of coffee beans, clean pre-filtered water and a lot of patience to get the final cup of freshly bewed coffee with the right amount of aroma. The coffee is set to rest for a couple of minutes for intensification before our barista carefully stirs the coffee so that the residue eventually settles into the bed of coffee at the bottom. The plunger sits nicely on the surface of the coffee, serving as a filter. The coffee is gently poured into the cup, smooth, rich and residue free.

The Chemex

The Chemex is a pour over style, shaped like an oversized hourglass, with the dripper cone sitting directly above the coffee reservoir. The brewer is first preheated, which also cleans and removes any stale smell from the filter paper. Hot water is then poured over the coffee beans in a circular motion, creating a gentle spiral until the volume reaches about a fingertip away from the top of the rim. A Chemex brew is perfect for more acidic or floral light roast coffee.

The Syphon Brew

The Syphon is probably the most exciting way to brew coffee. A syphon brewer has basic four parts: top and bottom chambers, a filter and a heat source. Pre-filtered, clean water is added to the bottom chamber and heated. When the water boils, steam escapes, creating a vacuum such that water travels up to the top chamber naturally. Ground coffee beans are then tipped into the top chamber to brew. Once brewing is done, the heat source is turned off, allowing the air in the bottom chamber to cool. This creates another vacuum which lets the coffee flow back down to the bottom chamber. The coffee is ready to be served. 100% GENUINE JAMAICAN BLUE MOUNTAIN - \$79.⁹⁰ AGED SUMATRA MANDHELING - \$12.⁹⁰ O'COFFEE CLUB CLASSIC - \$11.⁹⁰ SUMATRA MANDHELING - \$11.⁹⁰ ETHIOPIAN YIRGACHEFFE - \$11.⁹⁰ YELLOW BOURBON - \$11.⁹⁰ MOCHA JAVA - \$11.⁹⁰ ITALIAN ESPRESSO - \$9.⁹⁰
